

Electrolink N° 5

January 2011

OUTDOOR METER READING FACILITIES

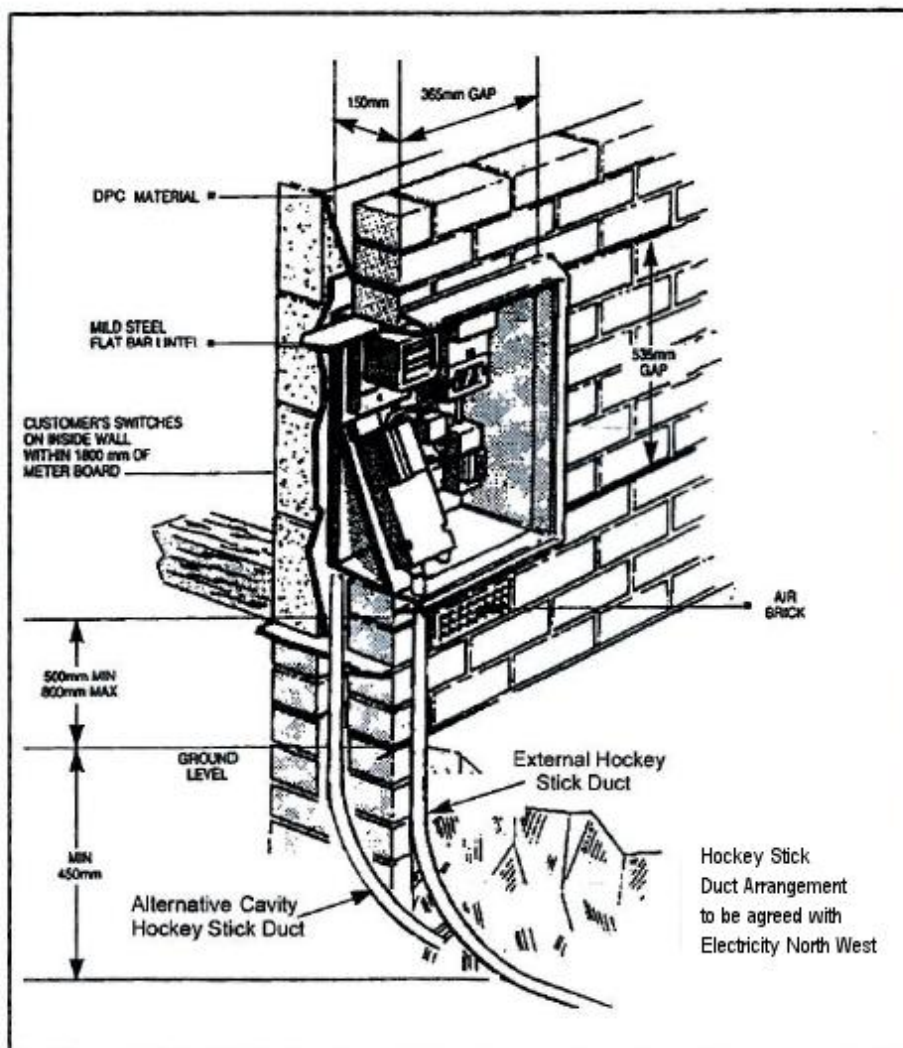

Standard cupboards, conforming to Electricity North West's specification are available for purchase by Builders, Developers and Local Authorities.

Fitting of an outdoor meter cupboard provides a number of benefits to both the builder and the occupier:-

SPACE SAVING WITHIN THE PREMISES

SERVICE EQUIPMENT OUT OF SIGHT

METERS CAN BE READ WITHOUT INCONVENIENCE

The cupboard, which is installed as shown in the diagram, is constructed of non-corrosive materials. The box is white in colour but may be painted by the builder if required. (A surface mounted cupboard for use in buildings without a cavity is also available).
