

Getting your meter fitted

What do I need to do now?

Thank you for accepting our quotation for your new electricity connection.

Your next step is to decide who will supply your electricity. Your chosen supplier will fit your meter. Electricity North West is not a supplier and therefore, we are unable to carry out this work for you. For your convenience please find a list of electricity suppliers on the reverse.

The guide overleaf will take you through the process required to have your meter fitted and connected.

For more information, you can contact us on 0800 195 4141, visit our website www.enwl.co.uk or email us at connectionsdelivery@enwl.co.uk

Bringing energy to your door

Getting connected

- To allow Electricity North West to create your Meter Point Administration Numbers (MPANs) for your project, to enable your chosen electricity supplier to fit the meters, you may need to provide Electricity North West with full proof of postal address for each property.

For every new address, your local authority will need to provide you with proof of postal address and you will need to pass this on to Electricity North West before we can raise the MPANs. Once the address is confirmed Electricity North West will contact you with your Meter Point Administration Number (MPAN).

- Choose your supplier then contact them to register the MPAN number. This will allow you to establish an account.
- **Electricity North West will contact you to agree a date for your connection to take place. This does not include fitting the meter.**
- Advise your nominated supplier of the connection date to arrange a meter fitting date with them. (Your chosen supplier will advise what notice will be required.)
- **Electricity North West will complete the connection work on the agreed date.**
- Your supplier will install the electricity meter to complete the process.

Here are a few contact details for some of the electricity suppliers who could connect your meter. For a full list of electricity suppliers please visit www.energychoices.co.uk.
