Policy Updates – Major Policy Updates

Ref	Issue	Title
CP319	Iss_2	Applied High Voltage Test Requirements
CP606	Iss_69	Operations Manual
CP608	Iss_33	System Control Manual

Policy Updates – Minor Policy Updates

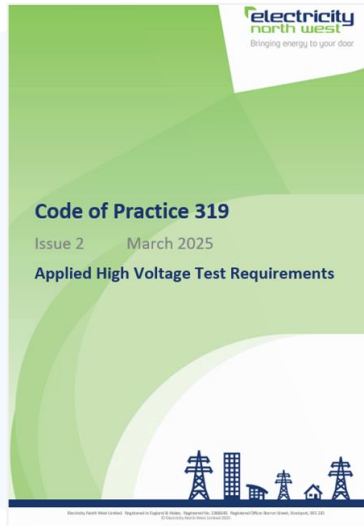

Ref	Issue	Title
ES220	Iss_8	Pre-commissioning Requirements for Independent Connection Providers Requiring New Assets to be Connected to the 11/6.6kV Network

Major Policy Updates

- The document has been converted to the new document template and completely updated throughout.

- The update includes changes to all values of test voltages across switchgear, cables and transformers.

- Update to Procedure A10 - Changes for reference to CP424-2. Amendment to Appendix B regarding VZ felling. Appendix D update to LZ cutting. Appendix H – Tree Cutting POWRA revised.
- Update to Procedure B12 – change to include Triplex 400mm² cable and clamp for spiking. Removal of redundant YN68 A/2 lock from spiking gun box and replaced with Abloy padlock.
- Update to Procedure G09 - change to require the pink copy of a Dangerous Occurrence Notice to be sent or emailed to the Health, Safety, Environment, and Quality (HSEQ) team for recording and tracking.
- Update to Procedure G19 - change to allow the use of arc resistant undergarments under disposable coveralls when tower painting.
- Update to Procedure G20 - reference changed to EPD283 (from CP331) for ELI values and fuse sizing.

- Updated to new CP template.
- Reformatting and new sections for Introduction and Scope, affecting numbering of existing sections.
- Consequential changes to number of sections due to changes in organisational structure and other policy changes.
- Removal of procedures for weather preparation -covered in CP604.
- Removal of DSMC Admin Procedures Section to be covered in HUB business processes.
- Removal of Appendices A, B & C relating to Standard Busbar Running, use of CRMS and CIFMS.

- New Section 12 added for Active Network Management. Innovation team to hold training sessions for all Control Engineers.
- Movement of Operational Procedures and Limitations into new Appendix A, NMH GP's into new Appendix B, System Paralleling Matrices into new Appendix C, Transmission Flood Prevention Measures into new Appendix D, ANM Site Procedures into new Appendix E, Generation Procedures into new Appendix F and Demand Side Response Procedures into new Appendix G.
- Withdrawal of OP20 and OP22, relating to old network configurations and generation.

Minor Policy Updates

- Appendix B updated to change the HV pressure test values given in the notes so that they align with the new values in CP319.
