

DG HV EHV Workshop

Wednesday 4 March 2020

Feedback summary

Stay connected...

www.enwl.co.uk

Attendance:

- 17 Stakeholders registered to attend this event, with 13 attending on the day. 2 of the attendees turned up on the day through receiving a flier from their ENWL contacts.
- This gives us an attendance rate of 76%, significantly higher than our previous DG HV event we hosted in July.
- 100% of the attendees surveyed rated the event 'useful' or 'very useful'.
- We asked stakeholders what topics they found most useful out of those presented during the workshop. G99, Heatmap & GIS updates were the favourites!

Topics for next time:

- More about DSO and our transition.
- G99 Compliance (possibly a whole workshop on this as all attendees recorded they would benefit from more on this subject)
- Connection Application Process
- Project Delivery

“A useful session and very informative. I am looking forward to attending the next one, thank you”

“Enjoyed the freedom to engage with all staff. They all had time answer our questions”

“Engaging presentation from all speakers. Very informative day”

DG HV EHV workshop photos and feedback

“Gill was an excellent speaker”

“Format was great and I enjoyed lunch”

“Interactivity process was very useful”
