

Unmetered Tri-Partite Agreement (UTA)

Guidance Document v1.0

Stay connected...

www.enwl.co.uk

- A framework-style Unmetered Tri-Partite Agreement (UTA) was introduced by Electricity North West in response to stakeholder requests.
- The UTA is an agreement between the ICP, the unmetered asset owner/adopter and Electricity North West for the delivery of unmetered street connections only. All other connections require a Bilateral Adoption Agreement (BAA).
- The ICP must enter into a Master Adoption Agreement (MAA) with ENWL prior to commencement of any works.
- The latest versions of the MAA and UTA are published on the Electricity North West website and can be found by following the link below:
 - <https://www.enwl.co.uk/get-connected/our-services/agreements/>

The Unmetered Tri-Partite Agreement (UTA)

- The mandatory fields to be completed for each agreement are highlighted.
 - Name, company number and registered address of the ICP
 - Name and address of the Local Authority for adoption of street assets or name, company number and registered address of the asset owner
 - Name of the geographical area where the assets will be delivered
 - Date the UTA is to commence from
 - Signatures, name and position of the ICP and Authority
- The UTA must be completed and returned to our contracts team contracts@enwl.co.uk for ENWL sign-off at least 5 days prior to work commencing.
- ENWL will then sign and return the UTA for your records.
- The Tri-partite agreement is valid for a period of two years.
