BiTraDER

DSO Functions: Flexible services webinar 14.12.22

Rebecca Hassall-Lees – Project Manager

Stay connected...

www.enwl.co.uk

Investigate, develop and trial an innovative method enabling peer-to-peer trading of curtailment obligations

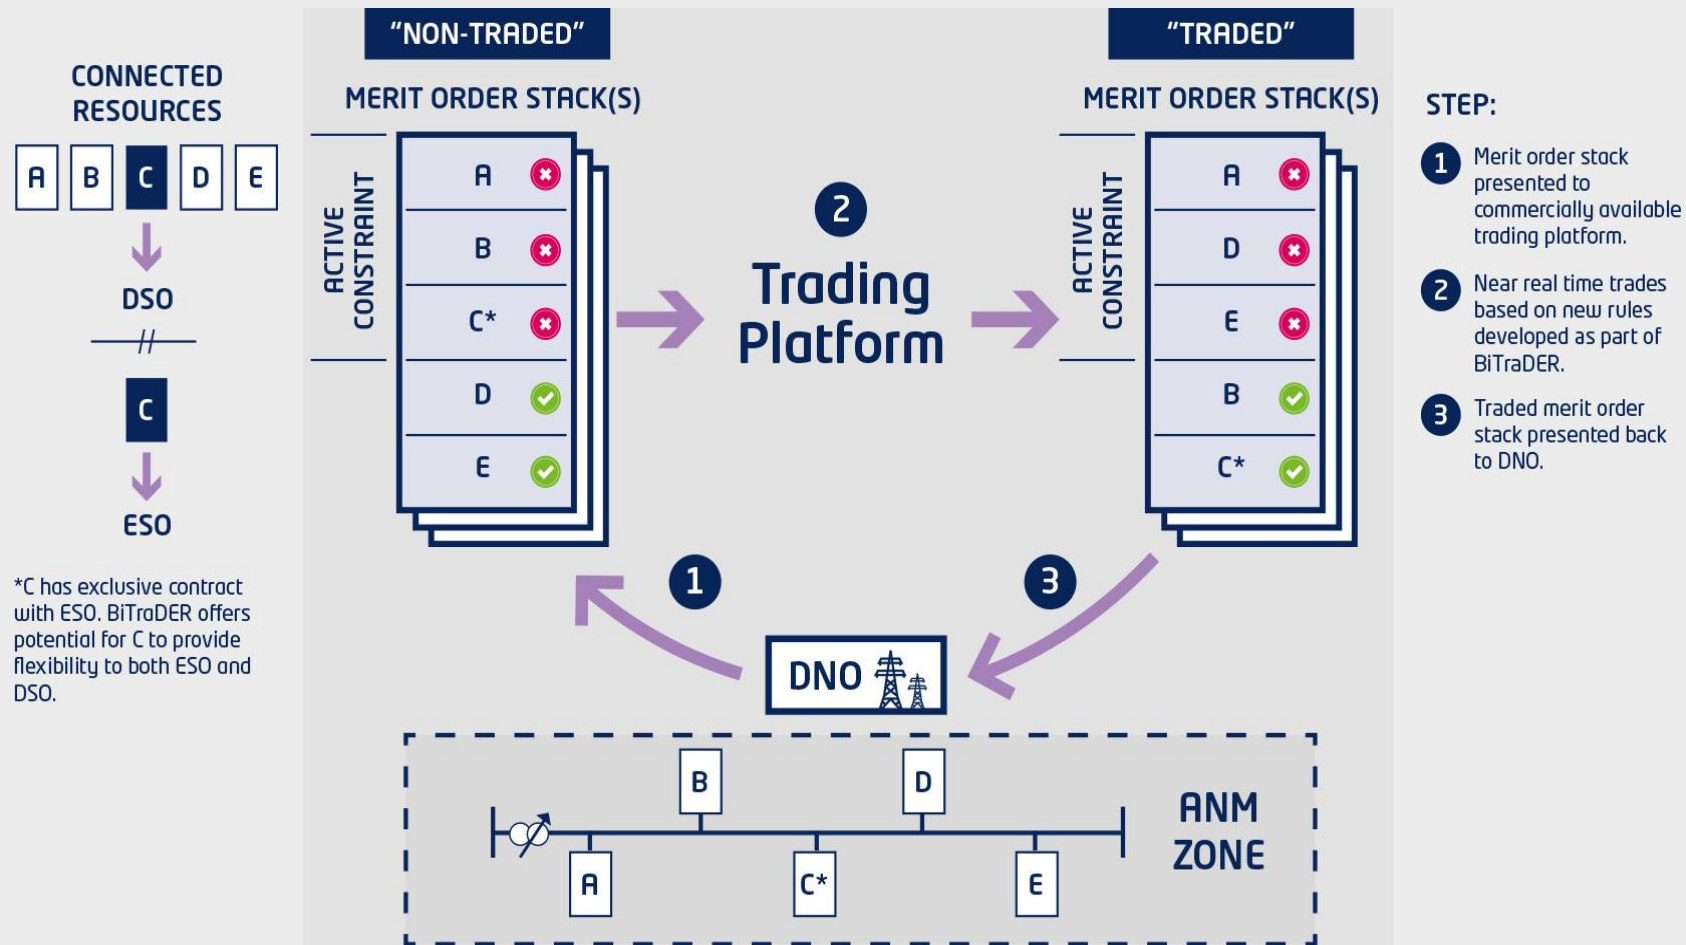

Reduce barriers for the uptake of RES & introducing new sources of flexibility and choice for connected customers

Encourage use of flexibility and reduce whole system costs

Enabling DNOs to meet the challenge of net zero

The BiTraDER Project will deliver a functional specification detailing the requirements for facilitating bilateral trading, including platform, market model, data requirements and interface.

Timescales and how you can get involved

Get involved in shaping the trading rules and trading platform

Feedback on the 'look and feel' and help us refine the solution

Take part in simulation and/or live network trials (subject to limitations), practice 'trading' and feedback on experience

- We're engaging with connected and connecting (large >1MW demand and generation customers) via a combination of:
 - Face to face annual workshops
 - Remote/online webinars
 - Online surveys
 - In depth phone interviews
- Project participants will be reimbursed for reasonable costs associated with time and travel for the project
- Interested? Register on our website: [BiTraDER Recruitment \(enwl.co.uk\)](https://enwl.co.uk/BiTraDER/Recruitment)
