DISTRIBUTION NETWORK OPERATOR (DNO)
The DNO – MO Agreement would require the MO to ensure the Connection Agreement Addendum is included as an addendum to the BiTraDER Terms of Use and to enable the DNO to issue instructions to the Participant via the platform. The DNO – MO Agreement may also cover matters such as pre-qualification standards (for the Market Participant), technical requirements and data sharing.
PLATFORM OPERATOR / LICENSOR (PO)
DNO – MO Agreement
EULA
EULA
Platform Licence Agreement
Connection Agreement Addendum
MARKET OPERATOR (MO)
The Platform Licence Agreement will also need to allow for the PO to update the platform related terms (that will be included within the BiTraDER Terms of Use) and the MO will be required to introduce these updated terms with the Market Participant, which the Market Participant will likely agree to via a click wrap mechanism.
BiTraDER Terms of Use
MARKET PARTICIPANT A
MARKET PARTICIPANT B
There will be no direct contract in place between market participants. Utilisation fees etc. will all be via the MO.
